Digital Update

31st August '21

Bringing together Croydon, Kingston, Merton, Richmond, Sutton and Wandsworth

Capacity Tracker

Changes to the COVID and Flu Vaccination information captured within Capacity Tracker (changes anticipated to take place evening of 31st August '21).

Care Home providers will no longer be required to split out workforce vaccination levels by role type (nurses, care-giving staff, non-care giving staff) and instead only require you to update the total numbers of residents, directly employed staff and agency/bank staff vaccinated for the following revised items:

- Number currently known to have received the first dose
- Number currently known to have received the second dose
- Number currently known to have received a COVID vaccination booster
- Number currently known to have received this season's flu vaccination

Questions to be removed from CT (from 31st August '21)

- COVID vaccination statuses “known NOT to have received” & “not yet known / undisclosed”
- COVID Vaccination Team Visit Information
