

# Interim vaccination process

*The Spring Booster program for the Covid Vaccine ceased on the 30<sup>th</sup> June 2022. The Autumn Booster program is due to start on the 5<sup>th</sup> September 2022.*

*There may be some Care Home residents or Housebound patients who require a Covid vaccination between the end and start date of the new booster vaccinations.*

*In these situations, national guidance states that it is important to ensure clinical conversations take place at the point of care about the optimal timing of a booster dose prior to an autumn vaccination program. It is expected that there will be a minimum interval of 91 days between an individual's last dose and an expected autumn vaccination offer. Those who enter care homes or turn 75 after 30 June are not eligible for further vaccination until the autumn program begins.*

*However, newly immunosuppressed individuals should continue to be offered vaccination through the summer period.*

*If, following clinical assessment and discussion with the patient/resident and their family/carers a vaccination is clinically indicated. Please complete the form on the following link*

<https://forms.office.com/r/W0prxaDQDA>

Hub can be contacted for any queries

# Vaccinations for new admissions in Care Homes

If the resident requires a vaccination immediately and the vaccine cannot be postponed till the Autumn Vaccine programme

1. Care Home accepts new resident without prior vaccinations
2. Care Home receives request from GP that the resident will require an immediate vaccine before Autumn
3. Resident is in immediate need of a vaccine dose before Autumn Booster programme
4. Or other request for a Care home vaccination that is clinically indicated before Autumn booster

Care Home contacts the Care Home registered GP for information on the following if it is not available:  
Previous Vaccination Type and Date  
Include: Full name  
NHS Number  
DOB  
Previous Postcode

- GP and resident will need to be asked about screening before receiving the vaccine  
Resident (pending capacity) or GP to be asked regarding :
1. Has the individual had any vaccinations in the last 7 days?
  2. Is the individual taking anti-coagulation medicine or do they have a bleeding disorder?
  3. Does the individual currently have any symptoms of Covid-19 infection?
  4. Is the individual currently unwell with fever?
  5. Has the individual ever had any serious allergic reaction to any ingredients of the Covid-19 vaccines, drug or other vaccine?
  6. Has the individual ever had an unexplained anaphylaxis reaction?
  7. Does the individual have a history of immunosuppression?
  8. Has the individual had any localised or generalised urticarial reaction after a previous vaccine?

Resident is required to sign a consent form, or alternative consent if issues regarding capacity, to receive the vaccination

 PHE\_11843\_Covid-19\_Consent\_form\_care\_home\_resident\_able-self.pdf  PHE\_11843\_Covid-19\_vaccination\_relatives\_view\_form.pdf

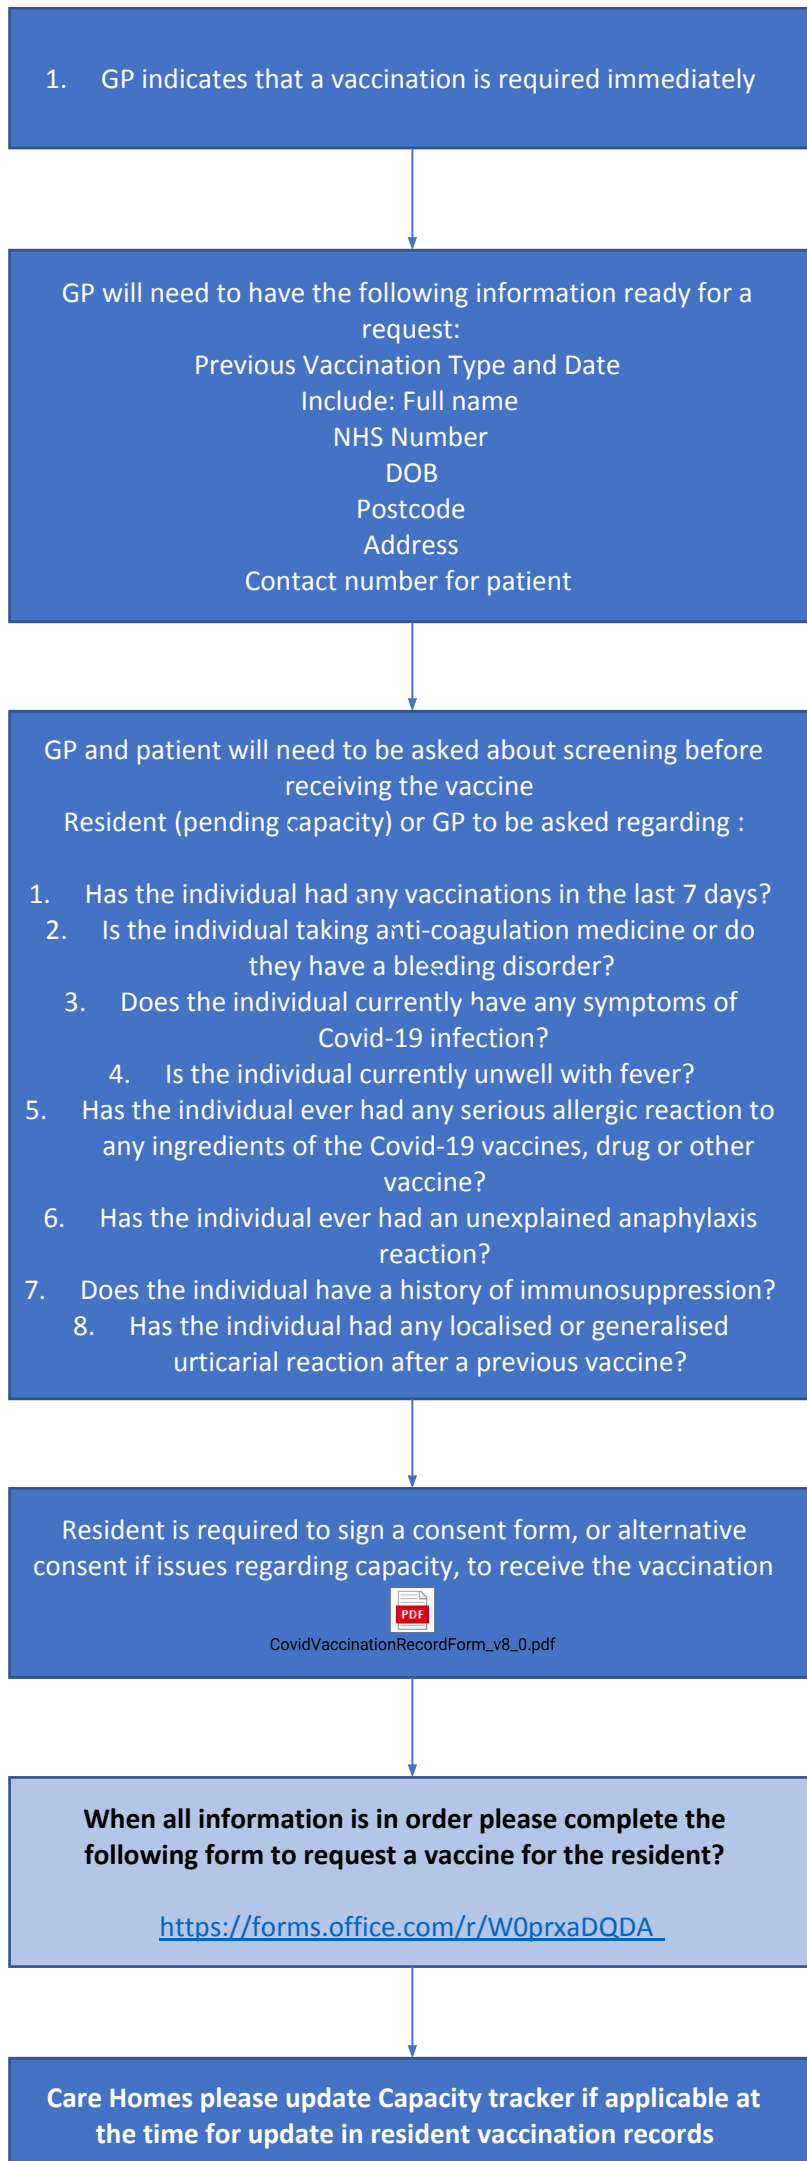

**When all information is in order please complete the following form to request a vaccine for the resident?**

<https://forms.office.com/r/W0prxaDQDA>

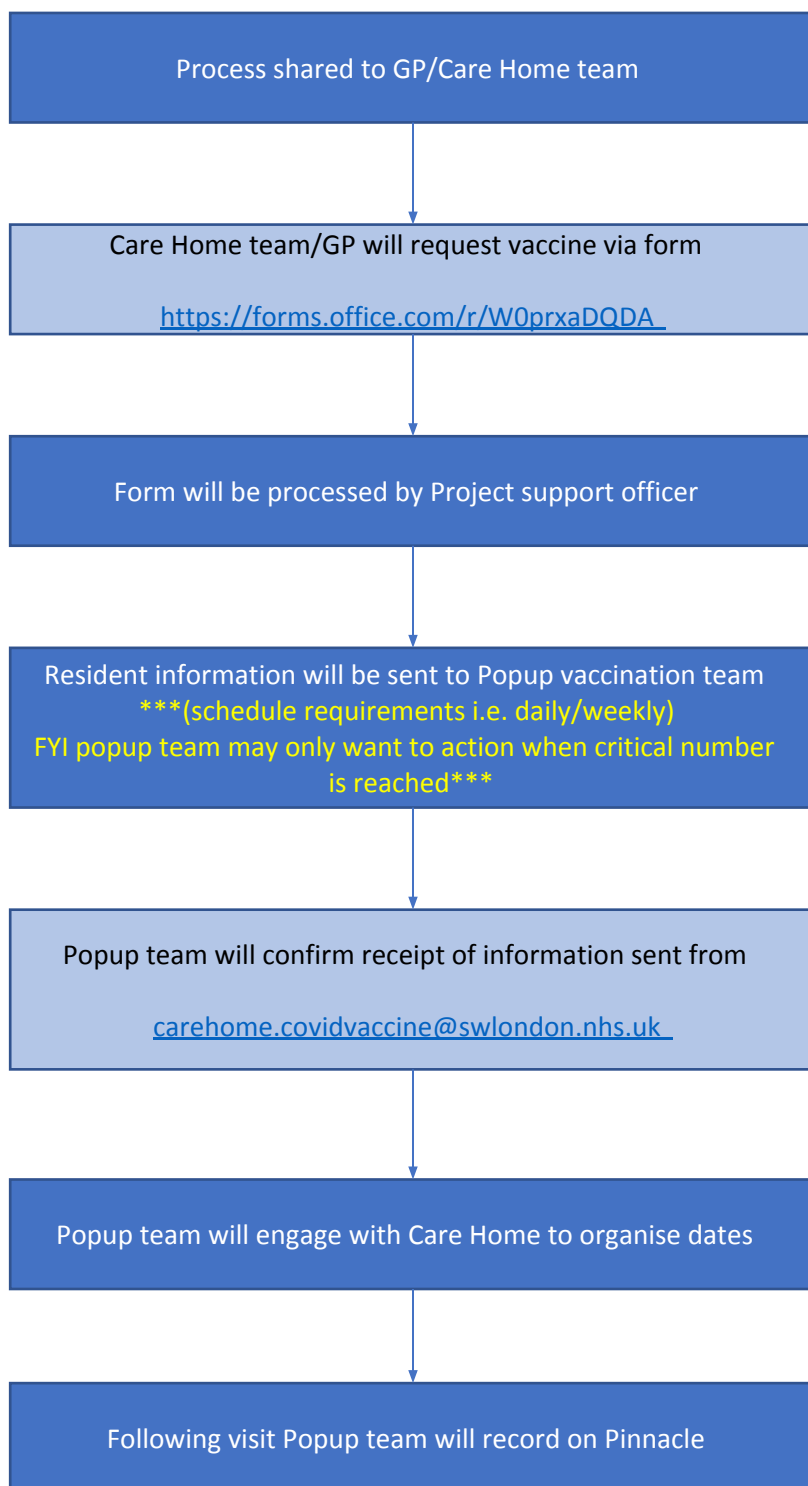

Care Homes please update Capacity tracker if applicable at the time for update in resident vaccination records

# Vaccinations for Housebound residents

If the patient requires a vaccination immediately vaccine cannot be postponed till the Autumn Vaccine programme
