

2024

ALL ADULTS REGISTERED CARE HOMES IN SUTTON CONFERENCE

[REGISTER HERE](#)

LEARNING TO PROVIDE BETTER CARE

Target Group:

Managers and care staff who are providing residential care to adults in the London Borough of Sutton (nursing homes, care homes, learning disability homes and mental health care homes) including health care assistants and registered general nurses. Commissioners and others who have responsibilities for the health and care of adults in residential care settings.

Workshops:

- Restore2 and Sepsis
- Aids to prevent contractures and good seating
- Palliative signs and symptoms of end of life
- Pressure, ulcer, skin tears and moisture lesions
- Management of diabetic conditions
- Support for learning disability carers
- Well being for people in caring roles

Aim:

- To help raise care standards in adult residential care settings in the London Borough of Sutton.

Learning Objectives:

- To raise awareness and refresh knowledge about why the fundamental care standards matter.
- To explore the importance of recreational activities and the positive impact on care residents health and well being.
- To increase awareness about the wide range of services and support available to residential care providers in the London Borough of Sutton.
- To raise awareness about the free training offer to promote continuous professional development in residential care settings.
